---

## Summary

- Attentive, analytical, and hard-working professional. My engineering background has allowed me to have strong technical skills, as well as a holistic view of issues. I am looking to improve and innovate in strategic business initiatives and processes.

## Technical Skills

Programming Languages	Python
Databases	PostgreSQL, SQL Server
Tools	Jupyter Notebook, Excel

## Certifications

- Azure Fundamentals (AZ-900) - Microsoft
- Google Data Analytics Certificates – Google Career Certificates on Coursera
- Excel Skills for Business – Macquarie University on Coursera

## Work Experience

Sept 20 – Jan 21	Internship resident
Description	Research project development "Adsorption studies of methylene blue in carbon obtained from residual biomass" <ul style="list-style-type: none"><li>• Experimental designs, analysis and interpretation of the data obtained</li><li>• It was possible to increase the adsorption capacity by 80%, measured through an adjustment model of experimental data, modifying the pH of the solution.</li></ul>
Technology	Excel

---

## Education

- 2021, BS in Chemical Engineering, Instituto Tecnológico de Durango
- 2023, Data Scientist Diploma, Skills.tech
- English (B1 level)
